ABOUT OUR PRODUCTS

Our products are made with **mushroom Fruiting Bodies** (not mycelium) and are proudly cultivated **within Canada**, in our GMP compliant facility, using organic & locally sourced mediums.

Many **other** Lions Mane products on the market are made with product sourced from China* where question-able cultivation practices and heavy pollution often result in higher levels of heavy metals and other toxic compounds.

Furthermore, many **other** Lions Mane products are made with myceliated grains that often contain up to 50% filler (grain/other growing mediums).

*According to our commissioned product research

ABOUT LIONS MANE

The *Hericium erinaceus* Fungus (AKA **Lions Mane**) derives its name from the appearance of its fruiting bodies - which resemble both a hedgehog (Herichium in Latin) and the flowing, wispy mane of a Lion.

Consuming Lions Mane mushrooms increases the production of nerve growth factor (NFG) which has been shown to not only reverse the effects of many neurodegenerative disorders, but improve cognition in healthy individuals*

Lioness Nutraceuticals harness the ancient & remedial power of this fungi to create functional mushroom products can improve memory & cognition, reduce anxiety, mitigate depression, & reverse symptoms of neurodegenerative conditions.

LIONS MANE

SUPPLEMENT CAPSULES

Canadian Grown Lions Mane

Lions Mane is gaining popularity as a nootropic supplement due to the results of several studies showing its positive effects on neural health, and its inhibitory effects on neurodegenerative disorders.

There is also evidence suggesting that mixing Lions Mane with Psilocybin mushroom can potentiate the neurological benefits provided by each mushroom.

Each bottle contains 25 capsules, each capsule contains 350mg of powdered Lions Mane Fruiting Body (no fillers).

25 Capsules (1 bottle)	12+	48+	96+	MSRP
